

## TECHNOLOGY – EDUCATION – BUSINESS

OCTOBER 2022 SCHOOL PARTNER IN EDUCATION

Established in October 1999, CTS College of Business and Computer Science offers a wide range of programs from pre-school to post graduate degrees. Visit CTS College at [www.ctscollege.com](http://www.ctscollege.com)

At CTS College, we strive to make education more than just about academics, but an experience that is second to none. IbisLink has helped to make this a reality. When we first started using IbisLink in 2019, we were looking for a secure online school registration system, one that was available to us 24/7 from anywhere. During the pandemic, and in particular during the lockdown, IbisLink powered our operations ensuring quick, secure and easy access to students' information.

CTS College currently use IbisLink to manage our course offerings, register students, post lecture notes and class recordings as well as to generate a wealth of reports. The system provides us with access to student records to track both their academic progress and financial status. This allows us to respond to students' queries in a much faster and more accurate manner as data is easily retrieved. Ibislink was designed with the end user in mind, it is both attractive and user-friendly. Given some of the unique features of our operations, the IbisLink support staff were always ready to make the required customizations to suit our specific needs

## CTS COLLEGE OF BUSINESS AND COMPUTER SCIENCE LTD

### CTS COLLEGE ENHANCES OPERATIONAL EFFICIENCY THROUGH CUSTOMIZED IBISLINK SOFTWARE SOLUTIONS

Our lecturers use Ibislink to upload lecture notes, class recordings, create online tests and track students' performance. Students are also able to login to Ibislink to check the courses they are enrolled on, view their invoices and payment history as well as use the Ibislink LMS to download all materials including lecture notes and class recordings. Students can check their own history (academic and financial). Additionally, students can upload assignments and check for plagiarism before submitting to the respective awarding bodies for marking.

IbisLink continues to evolve to meet the changing needs of organizations. With features such as IbisLink LMS, Online Tests and IbisLink Academy, IbisLink has now become a must have for educational institutions. I highly recommend IbisLink to any school that is looking to improve its operations.

Mr. Ravi Ragoonath, Executive Director, CTS College

At IbisLink, we value our **School Partners in Education**. For more information email: [info@ibislink.com](mailto:info@ibislink.com)
